

### LAS VEGAS MEDICAL DISTRICT

# By the Numbers!

Established by the Las Vegas City Council in 1997, the Las Vegas Medical District (LVMD) saw limited development for years, but today, is evolving as one of the most important, if not THE most important, economic development project in Southern Nevada, while simultaneously uplifting the quality and access of healthcare in our community - no small feat.

The new UNLV School of Medicine is the cornerstone of the LVMD with development of the entire area guided by a comprehensive master plan

that brings together medical services and providers in a way that Southern Nevada has not yet experienced.

So what's in the Las Vegas Medical District and what does it mean for Southern Nevada?

Here is a  
by-the-numbers  
snapshot!

# 24,182

**JOBS**
